Matt,

Will this include any of the Region 6 Animas/San Juan River Surface Water Intake Data for August 12 that you sent in last night? It has just been reviewed by HQ EOC and we were just about to ask for it to be posted, but I will hold back until I hear back from you if we need to remove the lat/long for any of those samples.

Yes, please remove the lat/long information for all of our surface water samples. If you need us to send you new tables to load for our previous data (9<sup>th</sup> and 10<sup>th</sup>) please let me know.

Folks: Let me know quickly on this issue. If we want to delete Lat/longs, I can do that from here.

I hope I'm not messing things up but do we really want to give coordinates for drinking water intakes and posting them tithe web?
